Connecting

Chander S Chawla, Forbes January 2015

"Sweden has a great opportunity in fundamentally changing healthcare from cure-based to prevention-based. ...by

connecting continuous stream of personal bio-metric data with the health-care system.

Due to a vertically-integrated healthcare system

Sweden is better positioned than the US to make this giant leap.

...**Skåne** is the best place in the world due to its history in medical, life-sciences, and mobile innovations.

...top-notch technical talent, support network for startups, and openness of the healthcare administration
